

The Priory Primary School – Dip And Do Home Learning

Get Electronic:

Learn how to access a mobile phone to make an emergency phone call. You must complete this activity with your parents.

Get Researching:

How do animals survive in extreme climates around the world? How do they adapt in the heat and cold?

Get Experimenting:

What insulators can you find around your home which would slow down how long it takes ice to melt? Which material worked the best? How long did it take for the ice cube to melt?

Get Cooking:

Help plan a balanced meal from all the five food groups. Learn how to prepare the food safely and cook it with help from your parents.

Get Writing:

Write a list of ten things you would consider essential for survival on a desert island. Order them from most to least important. One being most important – ten least important.

  

I'm A Survivor!

What do you need to survive?

       

Get Mathematical:

The NHS guidance recommends that adults should drink a certain amount of liquid per day. Use a cup and measuring jug to work out how much is this in litres and millilitres?

Get Thinking:

How much water do you need to survive? How much water should you drink each day? | this link to find out:

[How Long Can People Go Without Drinking Water? | Wonderopolis](#)

Get Creative:

Can you build a shelter that keeps you dry and protected from the elements? Have a look at home for resources which you could utilise for the task.

Get Active:

Bad weather and low light can make it difficult to get outside so try out The Body Coach's '5 Minute Move' workouts. Can you complete all five?

Get Performing:

Calling the emergency services is an important job in an emergency. Use the role play instructions to practise making a call.
