

MASS & CAPACITY

Learning Journey

Key Outcomes	Ongoing Assessment			
	Target	Some	Good	Exceed
1. To use scales to read measurements				
2. To measure mass in grams (g)				
3. To measure mass in kilograms (kg) and grams (g)				
4. To measure equivalent masses in kilograms (kg) and grams (g)				
5. To compare masses of different objects using kilograms (kg) and grams (g)				
6. To add & subtract mass				
7. To measure capacity & volume in millilitres (ml)				
8. To measure capacity & volume in litres (l) and millilitres (ml)				
9. To explore equivalent capacities & volumes in litres (l) and millilitres (ml)				
10. To compare capacities & volumes in litres (l) and millilitres (ml)				
11. To add & subtract capacities & volumes in litres (l) and millilitres (ml)
