

# ADDITION & SUBTRACTION

## Learning Journey

	Learning Objectives	Ongoing Assessment			
		Target	Some	Good	Exceed
1	To mentally calculate sums and differences using partitioning				
2	To use the column method to add numbers of more than 4 digits				
3	To use the column method to subtract numbers of more than 4 digits				
4	To use rounding to estimate answers				
5	To explore addition and subtraction as inverse operations				
6	To solve multi-step problems				
7	To compare calculations				
8	To solve missing number problems by using the inverse and comparing calculations
